Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is made in response to an amendment filed by Applicant on 2/15/2007.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Welch et al (6,276,712). Welch et al disclose a protective device for an occupant of a vehicle comprising an inflator 8, an inflatable cushion 2 having first 3 and second portions 9, the first portion 3 being above the second portion 9 when the vehicle is upright, and in which inflation of the second portion 9 commences before inflation of the first portion 3. The second portion 9 comprises a material that decreases in length and is distributed substantially uniformly and continuously throughout the second portion 9 when inflated so as to create tension. The first portion 3 comprises a node adapted, when inflated, to be positioned at approximately head and torso level of the occupant and comprises uninflated material 13 adjacent the at least one inflatable node 3. With regard to the order of inflation, the inflator 8 is directly coupled to the second portion 9 of the inflatable cushion 2 and thus gas from the inflator must inherently pass through

the second portion 9 before entering the first portion 3. As such, inflation of the second portion 9 commences before inflation of the first portion 3.

Response to Arguments

3. Applicant's arguments filed 2/15/2007 regarding claim 5 have been fully considered but they are not persuasive. Examiner considers uninflated portion 13 to be part of the protective device of Welch and as it is disposed above the second portion of the airbag and adjacent the node of the first portion of said airbag, Examiner considers it as part of the delegated first portion of Welch's protective device. Thus, Welch contains all limitations as claimed in claim 5 and Examiner maintains his rejection.

Allowable Subject Matter

4. Claims 1,4, and 6 are allowed.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 3616

the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
